Руководители:	д.ф.-м.н.	Андреев Андрей Андреевич
	к.т.н	Петров Петр Петрович
Рецензент:	к.т.н	Сидоров Петр Петрович

Работа выполнена в лаборатории клеточной биологии отдела патоморфологии  
ФГБНУ «НИИ акушерства, гинекологии и репродуктологии имени Д.О. Отта»

## There Is No Largest Prime Number

The proof uses *reductio ad absurdum*.

### Теорема

*There is no largest prime number.*

1. Suppose  $p$  were the largest prime number.
- 2.
- 3.
4. But  $q + 1$  is greater than 1, thus divisible by some prime number not in the first  $p$  numbers.

## There Is No Largest Prime Number

The proof uses *reductio ad absurdum*.

### Теорема

*There is no largest prime number.*

1. Suppose  $p$  were the largest prime number.
2. Let  $q$  be the product of the first  $p$  numbers.
3.  $q$  is not a prime number.
4. But  $q + 1$  is greater than 1, thus divisible by some prime number not in the first  $p$  numbers.

## There Is No Largest Prime Number

The proof uses *reductio ad absurdum*.

### Теорема

*There is no largest prime number.*

1. Suppose  $p$  were the largest prime number.
2. Let  $q$  be the product of the first  $p$  numbers.
3. Then  $q + 1$  is not divisible by any of them.
4. But  $q + 1$  is greater than 1, thus divisible by some prime number not in the first  $p$  numbers.
